

ATG|voice^{HD}

ATG is at the forefront of Voice over IP (VoIP). Because the voice system resides in ATG's data center, ATG|voice provides businesses, branch offices, remote workers and road warriors with a unified communications structure without substantial capital outlay costs, re-engineering of existing networks, or employee training.

ATG offers customers with products, services and a vast selection of new communications capabilities. ATG|voice provides a quality voice product by utilizing the infrastructure and services of major telecommunication carriers. ATG is one of the few carrier class VoIP providers, which enables call clarity, reliability and affordable services.

Hosted Voice

With ATG's Hosted Voice, you won't need any expensive equipment. And you'll get a phone system that's advanced, reliable, flexible, simple, cost-effective—and ready to go in about 15 minutes.

- You don't need any equipment—we host all of that for you off-site.
- You work with just one company, instead of two or three.
- You pay one flat fee per user, regardless of time on the phone.
- You can be set up with ATG|voice Hosted PBX in minutes.
- There's no contract to sign. Stay with us because you want to—not because you have to.
- Most businesses save from 50-85% over traditional phone costs.

Additional Voice Products and Services:

- Virtual SIP PBX For Large Business
- Virtual Fax
- Business Network Equipment
- Business SIP Trunking Solutions
- Business SIP Phones
- Video Conferencing
